

Walshs Ezy-Clean

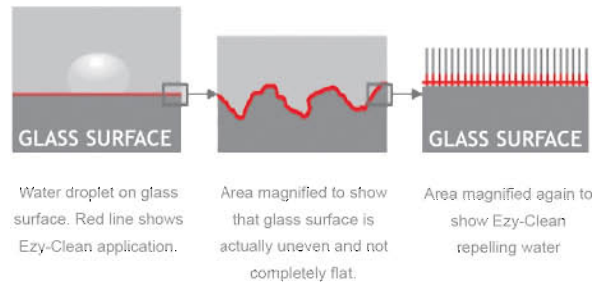

Anti Stick Easy to Clean Protective Coating For Glass

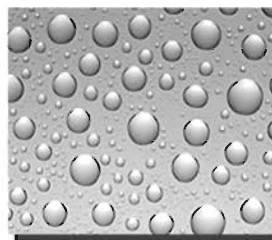

Easy to clean
exterior & interior
glass coating

How Does It Work?

Each water-repellent molecule has bonded chemically with the glass surface and forms a stable matrix with adjacent molecules.

Uncoated Glass

Coated Glass

The Difference

The Benefits

- Easy to Clean;** Up to 90% less cleaning required for coated surfaces
- Repels Water, Oil, Lime, Calcium & Minerals;** Permanent Protection from glass corrosion
- Chemical & Abrasion Resistant;** Results in an extremely durable coating up to 10 years protection
- UV Resistant;** UV radiation has no affect on the coating
- Environmentally Friendly;** Requires less water to clean and no need to use aggressive cleaners
